Mission:

1. Empowering through quality technical education
2. Ensure all round development of the students
3. Tuning the faculty to modern technology and strong liaison with industry.
4. Promote the Research and development activity in the field of pharmaceutical

Science

Online Induction Program

The matoshri college of pharmacy,nashik recently conducted online and offline induction for the batch of first year B. pharmacy. Around 50 plus Students excitedly attended the virtual induction programme that emphasised on the online mode of learning. The Principal Dr.Talele sir said “The institution would follow the PCI guidelines. “It will be a student induction programme. We will apprise them of the courses and give a virtual tour of the college. We will introduce the courses slowly. Our Learning Management System (LMS) enabled students to have full access to audio, video, chats, and other tools for appropriate use”.

The world has already witnessed a massive transition to virtual learning due to the lockdown. Institutes are now resorting to the online route to conduct assessment, placements and admission of students. Students are also welcomed via virtual induction programmes as college prepares for the new academic year Said Dr Talele.G.S.

Transition from school to university/college life is one of the most challenging events in a students’ life. When new students enter an institution, they come with diverse thoughts, backgrounds and preparations. They come into a new unfamiliar environment, and many of them have little knowledge of a university/college. An important task, therefore, is to welcome new students to Higher Education and prepare them for their new role. Currently, precious little is done by most institutions, except for an orientation Programme lasting a couple of days. Student Induction is designed to help in the whole process. Therefore, it should be taken seriously, and as something more than the mere orientation Programme.

Student Induction Program:

Student Induction Programme engages with the new students as soon as they come into the institution; before regular classes start. At the start of the induction, the incumbents learn about the institutional policies, processes, practices, culture and values, and their mentor groups are formed.

Purpose of Student Induction Programme is to help new students adjust and feel comfortable in the new environment, inculcate in them the ethos and culture of the institution, help them build bonds with other students and faculty members, and expose them to a sense of larger purpose and self-exploration.

The term induction is generally used to describe the whole process whereby the incumbents adjust to or acclimatize to their new roles and environment. In other words, it is a well-planned event to educate the new entrants about the environment in a particular institution, and connect them with the people in it.

No. of students: 53

After personality development session was over the next session was started at 2:00PM. Krishnadhan prabhuj is a good motivational speaker, Resource person, Soft Skills, Body Language and Personality Development Trainer. He is a president of ISKON nashik. His strength lies in inspiring and motivating people, helping them to bridge the gap between who they are and who they can be. He motivated the students by telling about the importance of Personality development as well as the Soft Skills. He said that students must develop their inner strength. Getting aware of and adjusting to the life is called as Personality Development.

He told that developing personality is very crucial in a person's life. We need to accept whatever happens in our life and we have to face it and keep going. Nothing is important than our lives. We should not take foolish decisions if something goes wrong. He also spoke on development of mind, intelligence, self-discipline

He also gave many real life examples which influenced his life. He said that without a Goal, one cannot achieve anything in his/her life. We need to maintain a good health which is very important in achieving our goals. He also stressed on the importance of effective Time Management. It is only a matter of understanding the strengths and weaknesses and working on them is personality development.
