To establish excellent learning center in the field of Pharmaceutical education & research and evolve the world class professional to serve the society.

Mission:

1. Empowering through quality technical education
2. Ensure all round development of the students

3. Tuning the faculty to modern technology and strong liaison with industry.
4. Promote the Research and development activity in the field of pharmaceutical Science

Online induction program:

The matoshri college of pharmacy,nashik recently conducted online induction for the batch of diploma in pharmacy. Around 50 plus Students excitedly attended the virtual induction programme that emphasised on the online mode of learning. The HOD Mr.chavan sir said “The institution would follow the MSBTE guidelines. “It will be a student induction programme. We will apprise them of the courses and give a virtual tour of the college. We will introduce the courses slowly. Our Learning Management System (LMS) enabled students to have full access to audio, video, chats, and other tools for appropriate use”.

The world has already witnessed a massive transition to virtual learning due to the lockdown. Institutes are now resorting to the online route to conduct assessment, placements and admission of students. Students are also welcomed via virtual induction programmes as college prepares for the new academic year Said Dr Talele.G.S.

Transition from school to university/college life is one of the most challenging events in a students’ life. When new students enter an institution, they come with diverse thoughts, backgrounds and preparations. They come into a new unfamiliar environment, and many of them have little knowledge of a university/college. An important task, therefore, is to welcome new students to Higher Education and prepare them for their new role. Currently, precious little is done by most institutions, except for an orientation Programme lasting a couple of days. Student Induction is designed to help in the whole process. Therefore, it should be taken seriously, and as something more than the mere orientation Programme.

Student induction program:

Student Induction Programme engages with the new students as soon as they come into the institution; before regular classes start. At the start of the induction, the incumbents learn about the institutional policies, processes, practices, culture and values, and their mentor groups are formed.

Purpose of Student Induction Programme is to help new students adjust and feel comfortable in the new environment, inculcate in them the ethos and culture of the institution, help them build bonds with other students and faculty members, and expose them to a sense of larger purpose and self-exploration.

The term induction is generally used to describe the whole process whereby the incumbents adjust to or acclimatize to their new roles and environment. In other words, it is a well-planned event to educate the new entrants about the environment in a particular institution, and connect them with the people in it.

Day 1:

The new beginning for all the students has started on the very first day of induction program on 05th January 2021. With the help of goggle meet. Around 50 plus Students excitedly attended the virtual induction programme that emphasized on the online mode of learning.

Around 11:30 AM the respected principal Dr.G.S.Talele. Addresses the student and welcoming the diploma students. Sir also said that all the students in this batch are lucky as they are attending the induction program at home instead of college. Due to the pandemic situation. He motivated us by sharing his previous experiences and has told to have a “fixed goal in a life and we have to work harder with a dedications and loyalty to grab the opportunity”.

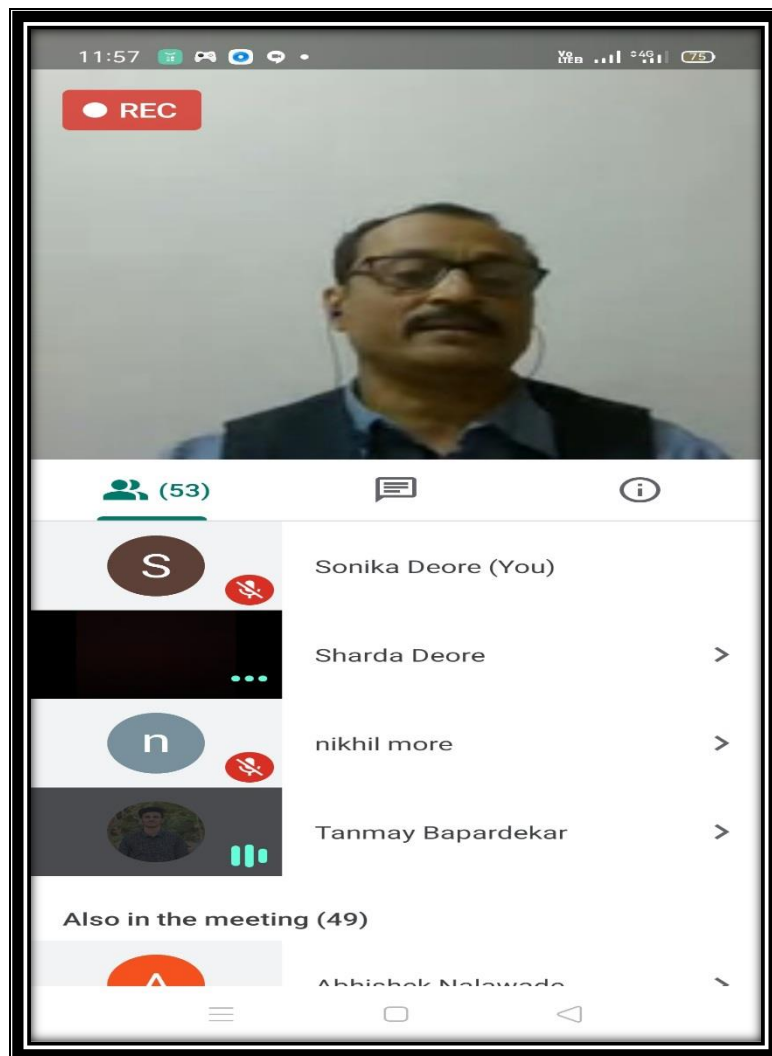

Sir also suggested to students that during this COVID-19 situation there is increase in demand of pharmacy profession as well as pharmacist. He also given the knowledge about pharmacy store, industry, hospital pharmacist etc.

Day 1(afternoon session):

Mr. Satish Bapardekar:

He addressed about meditation man Shakti. He also suggest how one should approach life so as to remove the sources of grief that would affect life.he said it is important to have an original set of mind instead of trying to copy others, we should do what is right and correct.

Day 2:

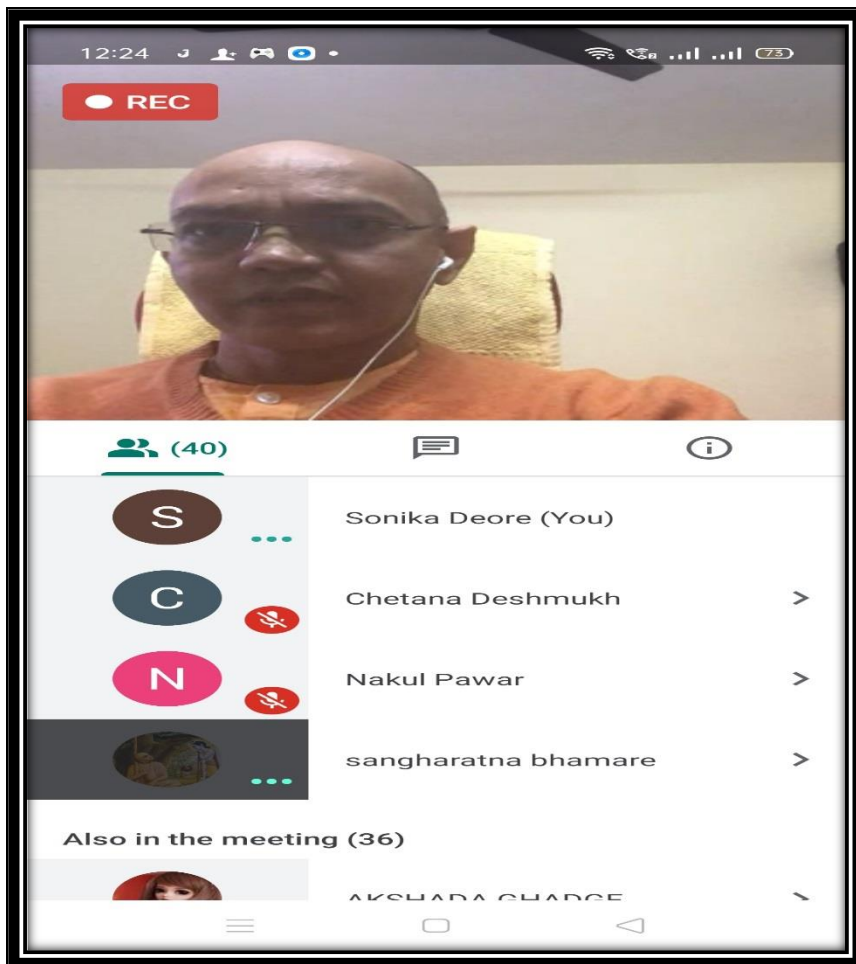

Mr.Sanghratna Bhamre.

On the 2nd day of induction, he addressed about the control to the mind and enhancing the grasping power.

He told us about the various powers of mind which help us to achieve anything in our life.

Some of them are:

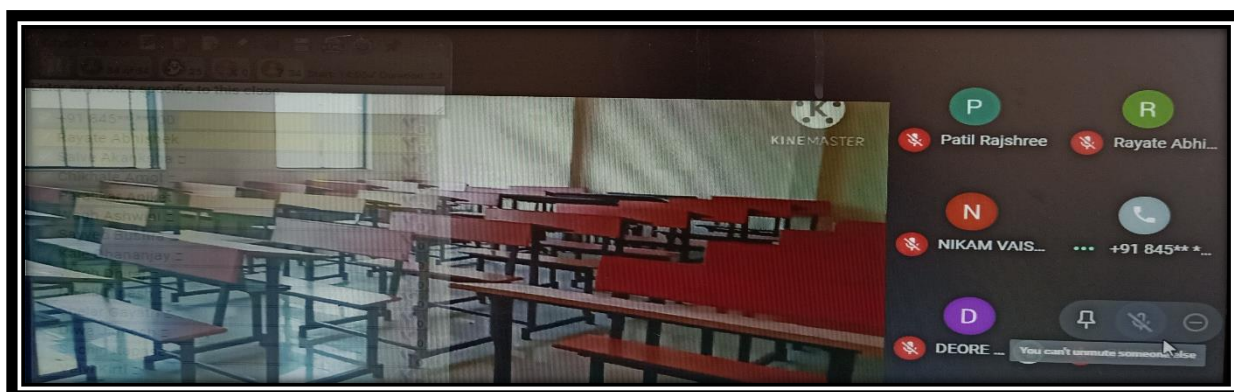

- The power of strength
- The power of confidence
- The power of positive thinking

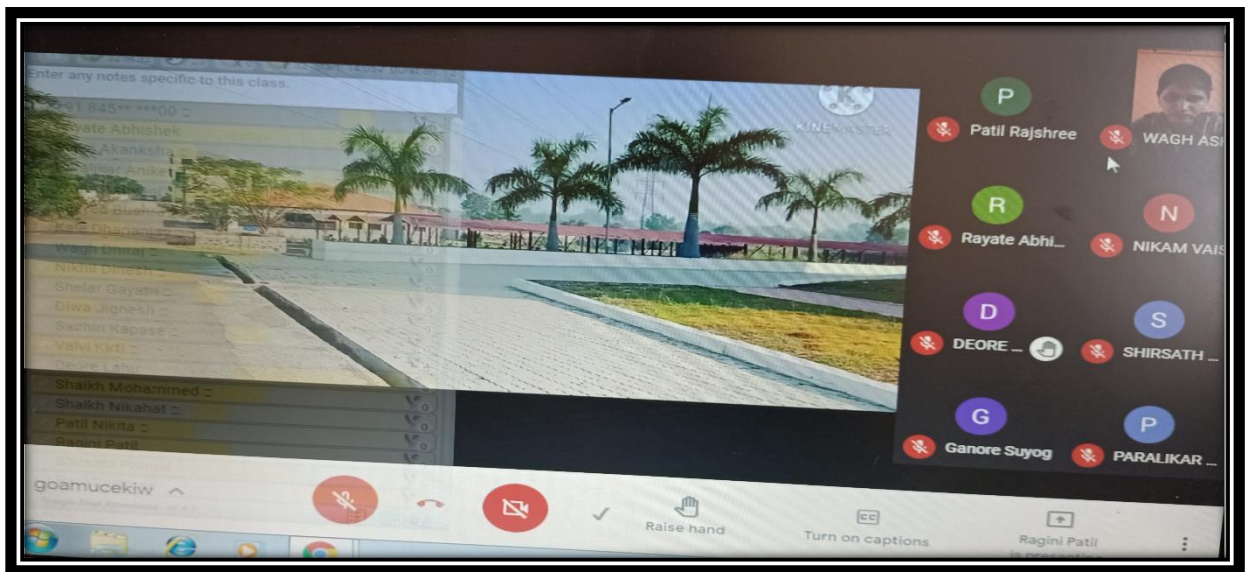

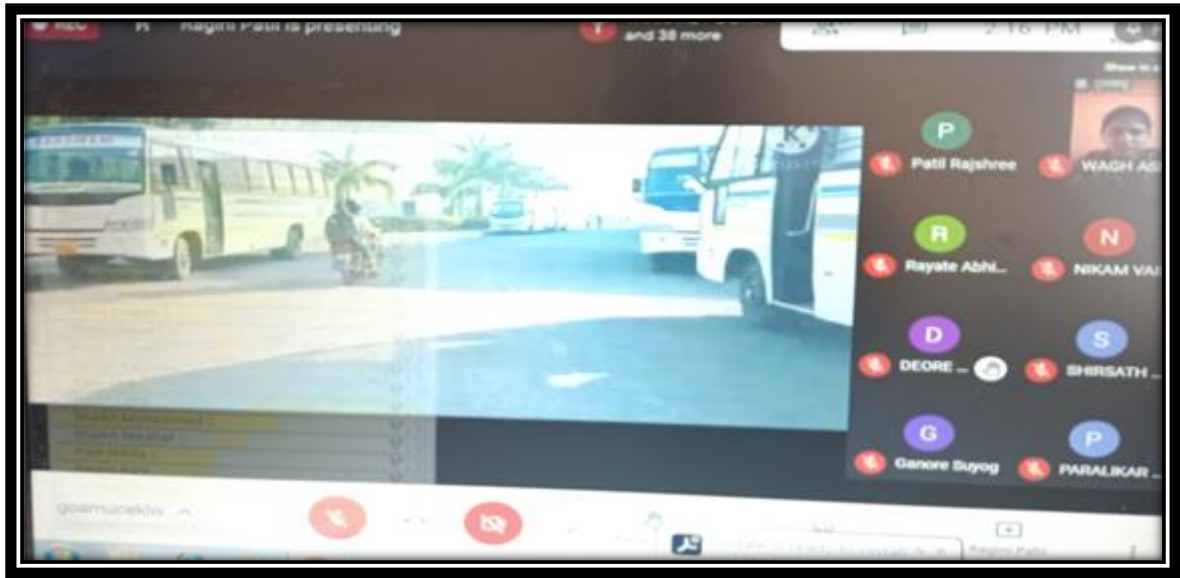

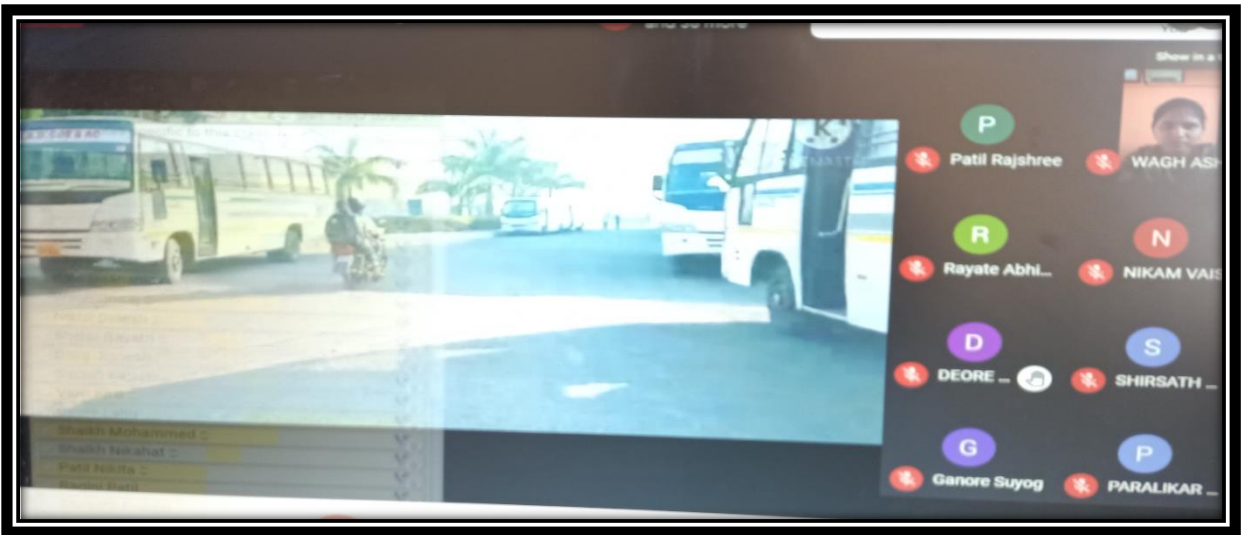

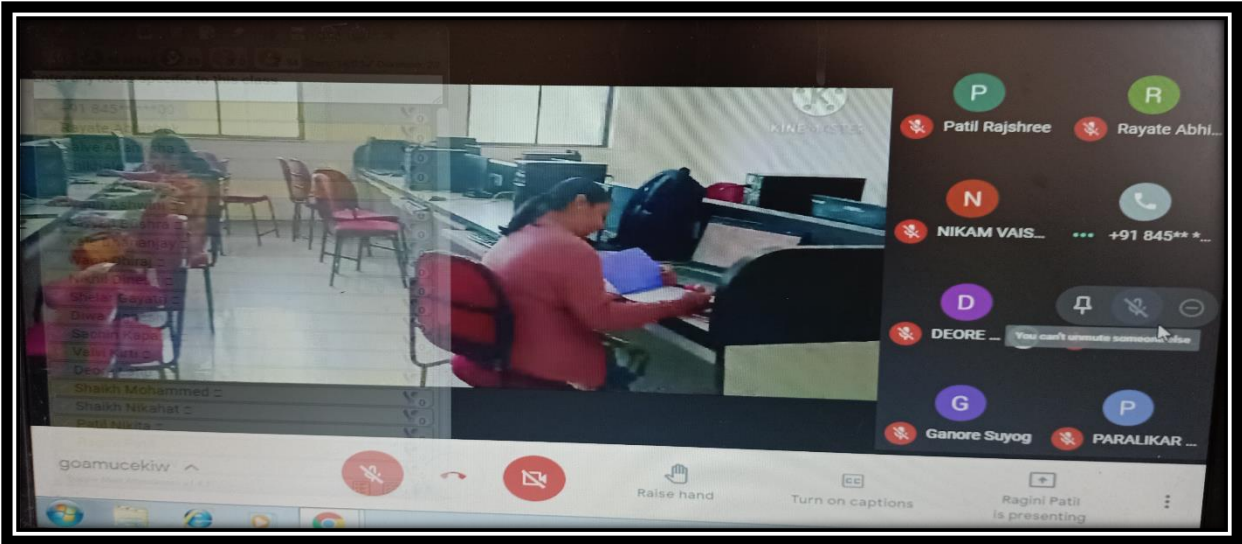

Day 3:

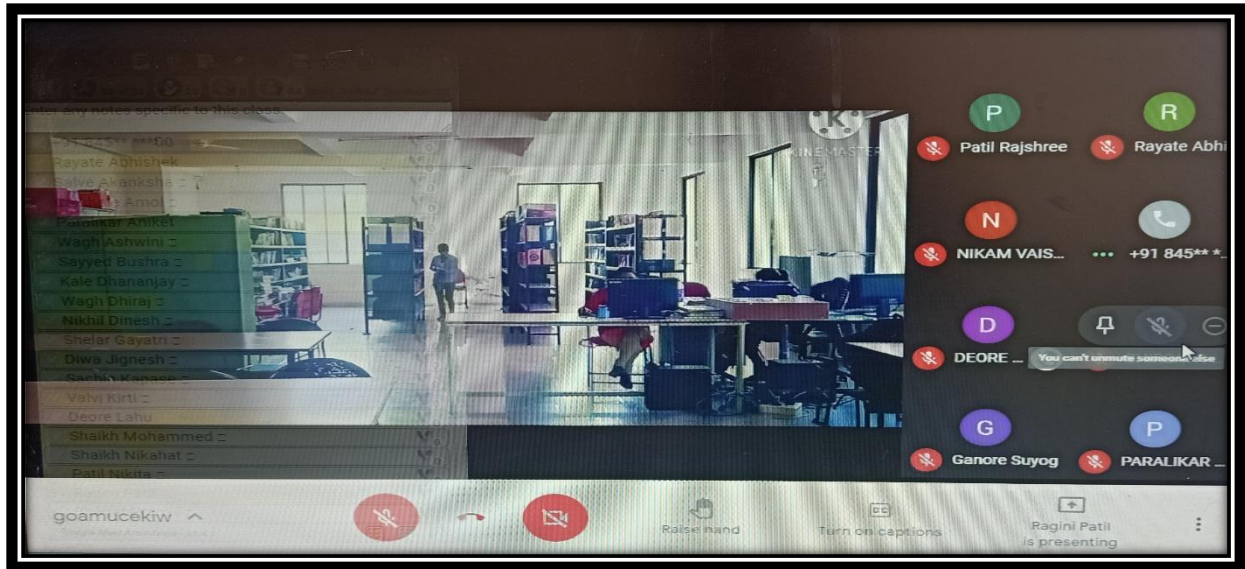

Campus visit:

Campus visit activity was conducted to familiarise the fresher students to the Institute campus by online taking them to different locations in the campus and to make them aware about different co-curricular and extracurricular activities in the campus. As an integral part of induction programme and to furnish exposure to campus environment , the committee organized a one day online visit program for campus.

Day 4

Tree plantation

If you stand for a reason, be prepared to stand alone like a tree, and if you fall on the ground, fall like a seed that grows back to fight again.

Tree plantation programme was held in our college on 4th day of induction programme .The students of class first year actively participated in the programme. Principal , teachers ,and students went to sapling in our college premices.

OUTCOME OF THE PROGRAMME

The main purpose of this Program is to help the newly admitted students to understand about the University and its Mechanisms, course, scheme, evaluation system, Departments wise facilities and faculties members etc.

CONCLUSION

With the cooperation of the students and the faculty members the virtual induction programme was able to record the feedback of the students in expert talks. The total involvement of deputed faculties actively engrossed in various responsibilities of induction programme. Students are made aware about multidisciplinary areas and their developments and developed ability to transcend from subjective knowledge to the application of subject in real life situation .
